

Themed Weddings Designed With A Personal Touch

Heaven's Gift helps couples realize their dream wedding and adds a touch of magic with their creative flair.

Themed weddings do not necessarily have to be luxurious, it can be a modest reflection of the couple's love story. Trained as a floral specialist, with expansive experience in fashion design, Hannah is also a certified Wedding Specialist from Weddings Beautiful Worldwide. Her warm demeanour puts you at ease as she talks you through your wedding plans, budgets and requests. An excellent listener, she begins with sessions to share your sweet memories before conducting personality tests and colour scheme choices to advise and recommend various options.

Immense thought and effort goes into the preparation of your big day. Often, we forget that this grand day is a celebration of love, rather than a performance, but like everyone else, we can't help but fret over it. Heaven's Gift helps organize the event, incorporating ingenious ideas, but always retaining the personal touch of the couple. After all, a wedding celebration is a reflection of the host, not the planner – a philosophy of Heaven's Gift.

Heartwarming stories of weddings stand testimony to the exquisite services. Blissful couple Eric and Felicia had a fun and funky wedding with a touch of retro. Heaven's Gift tackled the challenges of dressing up the

original Victorian Raffles Hotel with feather boas and giant loud coloured balloons to transform it into outrageous fun-retro settings, while the sporting bridal party turned up in sixties costumes. The couple's love story was recreated and they did their wedding march on separate ends of the room, to signify their moment of serendipity when they met.

So, if you are looking for creative ideas for your wedding and one that reflects your love story, keep Heaven's Gift in mind. 🌸
