

HEAVEN SENT

FOR more than four years, Heaven's Gift has been a blessing to the scores of wedding couples whom it has served proudly. While some may see weddings as a one-template-fits-all approach, Hannah Chong, the founder of Heaven's Gift, believes that every celebration should be much more than that : each event must be unique, intricate, and a true reflection of the personality and taste of the host and the planner. It is this kind of attitude that takes the concept of wedding planning at Heaven's Gift up a notch. Hannah and her team take special care and effort to create weddings and parties that express their client's deepest dreams and imaginations, down to the very last detail.

For every couple, there is a unique fantasy awaiting to be made real. Heaven's Gift has brought to life several theme weddings that accentuate their client's story and individuality: An "Under the Sea" wedding for a couple who fell in love, through diving trips, to a "Enchanted Gardens" wedding for a couple who wanted a classic, elegant and yet magical wedding that would wow their guests. Heaven's Gift orchestrates every element, making sure every moment is accounted for and above all, to design a wedding that exudes elegance and beauty. Their goal is to create a wedding concept so creative and unforgettable that even the guests will not want to leave at the end of the celebrations.

With her team of four at Heaven's Gift, Hannah Chong has served many international and local clients who have been seeking that modern but innovative twist to parties and celebrations. Hannah is also a trained and certified Professional Bridal Consultant with the Association of Bridal Consultants in the United States, the world's largest and most esteemed bridal association in the wedding industry.
